

PUTNAM COUNTY  
LIQUOR BOARD  
HELD SESSION

PETITIONS CONSIDERED  
THURSDAY DURING MEETING  
AT COURTHOUSE

MEETING AT CLOVERDALE

Board Will Submit Findings To  
State Board At  
Indianapolis.

The Putnam county liquor commission, composed of Edward Hoffman, Ray Fisher and Frank Hahn, Greencastle, met for the first time Thursday morning in the office of the county clerk to hear the applications that had petitions for beer, wine and liquor licenses in this county.

Those filing applications for licenses included Hoffman Bros., Greencastle, wine license; Audrid Hahn, Greencastle, liquor dealer; James Haltom, Cloverdale; Warren Young, Bainbridge; and Clayton Hahn, McHaffie Corner, beer permits.

The board interviewed each of the applicants as to their fitness to dispense the brand of liquor for which they are asking permits and also heard any other witnesses who were interested in either the granting or the refusal of the permits sought.

No objections were offered to the board for the issuing of permits in Greencastle, the "Y" or Bainbridge, but when they heard the petition of Mr. Haltom at Cloverdale, a delegation from that town was on hand and offered serious objections to the issuing of any beer or liquor permit for the town.

Cloverdale delegation was headed by T. J. Nixon. Others were also present and their objections were generally against the beer business, but Nixon raised the question of the residence of Mr. Haltom, which caused him to withdraw his application and thus prevent him from getting a beer permit. The law requires permit holders to be a resident of the unit in which he is going to sell. In this case it was said Mr. Haltom lived outside the town of Cloverdale, practically admitted the same and Hoffman, chairman of the board, said if this was the case, he was not able to a permit.

Hoffman also said the local board is a fact finding board only and has nothing to do with the issuing of permits, and he further said the state board does not always find according to the local board's recommendation. This was borne out by the first hearing here in which it was said a unanimous recommendation against the issuing of one permit was made, but the applicant was issued the license from Indianapolis over the adverse recommendation.

Mr. Hoffman also told Haltom that he paid for his license and it was issued, and then the state board discovered that he was not eligible, it could be revoked and no provision is made for a return of money paid.

FIRST ON JOB

INDIANAPOLIS, July 18. — The first action toward construction of the \$3,000,000 low cost housing project in the vicinity of the City hospital was under way today when carpenters were at work building tool sheds and offices for the construction company.

Steam shovels and other excavating and construction equipment will be on the site within the next few days, Carl Ferguson, government supervisor, said. The N. P. Severin Company of Chicago is general contractor.

20 Years Ago  
IN GREENCASTLE

Putnam County farmers have the latest crop prospects in fifteen years. Wheat is far above the average in yield and quality, it is reported. The hay, both clover and timothy, is good and corn and oats are "the best ever."

Mrs. Bessie Redsecker of Indianapolis is visiting her father, John H. James.

Cleve Thomas Fred Thomas, William Sutherland, Charley Watson and Henry Runyan left for Detroit, Mich. to drive home some new Maxwell automobiles.

Mr. and Mrs. M. M. Marshall and daughter Eugenia, and Mr. and Mrs. C. E. Cooper motored to Turkey Run.

Emperor Haile Selassie Delivers  
Stirring Talk Before Ethiopian  
Parliament

(Copyright, 1935, United Press)  
ADDIS ABABA, Ethiopia, July 18. (UP)—"God will be your rampart and your shield," Emperor Haile Selassie I told his parliament in an earnest, inspiring speech in which he urged his fellow countrymen—and women—to fight with him to the death if Italy attacked.

He had announced previously his intention of leading his men in the field if war broke out, and he told the members of his parliament, assembled from the mountains and torrid lowlands of his empire, that he had prepared himself to die, if need be, with them.

Roused to fervor by the emperor's speech, the Somali chief of Ogaden province, bordering on Italian Somaliland, and the Mohammedan chief at Addis Ababa rose and told the parliament that Haile Selassie's subjects would fight beside their Christian brothers.

It was a scheduled speech in which the 44 year old emperor of the ancient dynasty founded by Menelik I, son of the Queen of Sheba and King Solomon four centuries before Christ, told the country of the crisis with fascist Italy.

"Ethiopia knows how to fight to preserve its independence and its sovereignty," he said.

"Soldiers! Follow the example of your warrior ancestors. Soldiers! Traders! Peasants! Young and old, men and women! Unite to face the invader! Your sovereign will be among you, and will not hesitate to give his blood for the independence of his country."

Haile Selassie accused Benito Mussolini directly of responsibility for fomenting war.

"He is inflaming his soldiers with a vision of writing a glorious page in history," the emperor said.

"The Italians are fortified with all modern weapons. But they will yet see how a united people will defend their country."

"Italy for 40 years has desired war. Last summer the desire was made more openly manifest. Then came the incident (frontier clash) at Gondar, then at Ualual.

"Not content with killing our soldiers, Italy demanded apologies and indemnities. Conscious of our rights we demanded conciliation and arbitration according to our treaties. We menace nobody."

GIRL SUFFERS ELBOW INJURY

Boy Taken to Home In Danville.  
Condition Not Considered  
Serious

Three persons were injured, one seriously, about 8:15 Wednesday night when two cars crashed head-on on state road 36 about eight miles north of Greencastle.

The cars, a Dodge coupe belonging to the Putnam Motor Sales Company, driven by "Buzz" Porter of Danville, and a Model T Ford sedan driven by Mrs. Noel Bettis of Route 1 north of this city, were both seriously damaged, the Ford almost completely demolished.

Norma Stearn, 18, of Vernon, Ind., near Indianapolis, was the most seriously injured, suffering a severe fracture of her left elbow. The arm was crushed and badly broken. She was rushed to the office of a local physician by Raymond Nelson who lives near the scene of the crash and was, with his wife, the first to appear after the mishap. The girl was immediately taken to the county hospital. Attending physicians say that her injury is the worst possible not to require immediate amputation. She was removed by local ambulance to the Methodist hospital in Indianapolis this morning.

Other occupants of the Ford besides Mrs. Bettis and Miss Stearn were Maxine Clodfelter of route 1, Greencastle, who suffered a badly bruised shoulder and possible internal injuries, and Miss Joy Bettis, 609 Middle Drive, Woodruff Place, Indianapolis, sister-in-law of Mrs. Bettis. Miss Bettis apparently was uninjured.

Porter, a 17 year old boy, was driving north enroute to Danville when the accident occurred. He was knocked from under the steering wheel by the impact of the crash, suffering a bruised shoulder and possible internal injuries. He was taken to his home in Danville by E. J. Roberts, who appeared on the scene soon after the crash. Danville physicians report he is not seriously hurt.

Porter was enroute to Danville.

When the cars crashed the Ford was turned completely around and headed back north, while Porter's car careened off the road, tore through a hedge beside the highway and crashed into a large maple tree. The front of the car was badly damaged and the windshield was broken. The car was towed to Danville.

The accident occurred about a mile north of Brick Chapel in front of the N. C. O'Hair farm. Raymond Nelson and Philip Good were the first on the scene.

New Street  
Signs Erected

JACKSON AND INDIANA STS.  
MADE PREFERENTIAL  
OVER WALNUT

New street signs were erected at the intersection of Walnut and Jackson and Indiana and Walnut streets Thursday morning by Marshal Lawrence Graham and hereafter both Jackson and Indiana street traffic will have the right of way over that on Walnut street. The signs facing Walnut at both the intersections call for a stop at these intersections.

Both of these corners have been quite dangerous for months. This was especially true of Jackson and Walnut streets, and many narrow escapes from serious accidents have taken place there.

If traffic will observe the signs, this danger should be eliminated to a great extent. The signs are also sufficiently high on the light posts to be seen. The stop sign that has stood near the ground on Jackson street heretofore has been too low to be visible when a car was parked near it and there was no benefit of such a sign. However the new ones are high and easily visible and traffic should watch for these preferential streets in the future.

Mr. and Mrs. Kenneth Todd of Bedford are visiting the former's parents, Mr. and Mrs. Fred Todd, East Washington street.

CONFIDENT  
COURT WILL  
UPHOLD AAA

AAA PROGRAM DIRECTOR CERTAIN SUPREME COURT WILL RULE FAVORABLE

PROCESSING TAX INVOLVED

New England Circuit Court Of Appeals Recently Ruled Act As Unconstitutional.

WASHINGTON, July 18. (UP)—President Roosevelt assured newspaper correspondents today that the AAA program will be fought to a supreme court test of constitutionality.

A few hours later AAA Administrator Chester A. Davis admitted in a press conference that if the processing taxes are held unconstitutional the new deal farm program will be wrecked.

The president believed there would be no supreme court decision on the AAA until late autumn. Davis was confident the AAA would be upheld.

He discussed the adverse decision of the New England circuit court of appeals—handed down in Boston—in conference with Seth Thomas, solicitor for the department of agriculture.

"The end of the processing taxes unquestionably would mean the end of the AAA in all its important aspects," Davis said, "but I don't want to say for a minute that we believe the supreme court is going to make any such decision."

Passage by congress of the AAA amendments now under consideration in the senate, he said, would go far to support constitutionality of the processing taxes.

The AAA is obligated to the farmers for a total of \$1,600,000,000 under its system of paying benefits to those who cooperate in its production control program, Davis said. Of this figure about \$900,000,000 has been paid out of processing taxes. If collection is stopped, the government would owe the farmers about \$700,000,000, he added, a moral and probably legal obligation.

The senate sought to speed passage of the AAA amendments yesterday through an agreement to limit debate. Then it reversed its action of Tuesday, when it voted to permit price fixing for foodstuffs.

It voted reconsideration and then rejected, 44 to 41, an amendment which would have permitted a majority of the producers of one commodity to fix the minimum price to the purchaser. Tuesday's vote was 40 to 38 in favor of the amendment.

AAA officials saw a nation-wide campaign of processors against the tax in prospect as result of the Boston decision. Already more than 150 suits to restrain further collections are pending. If these suits succeed in preventing the AAA from raising revenue in this manner, the administration may have to dip into the \$4,000,000,000 work relief fund to pay the farmers.

Use of the recovery fund would be "legal," AAA officials said, but they pointed out that all checks would be subject to approval by Comptroller General John R. McCarl, who has caused the new deal considerable trouble in the past with his rulings on accounting practices.

The president was affable and jovial as usual yesterday when he greeted some 200 members of the press corps. He explained he is determined on enactment of his legislative program this session despite sentiment for early adjournment because he feels he has a strong case.

Mr. Roosevelt, himself a lawyer, recalled smilingly that it is an old trick of a defense lawyer, when he feels that his case is weak, to ask for adjournment until the next session of court. If the plaintiff has a good case he generally wants to press it. That is what is happening in congress now, he indicated, in the movement to quit without passage of his tax program, which calls for higher levies on great wealth.

Milk Law Held  
Valid By Court

STATE CONTROL REGULATION  
IS CONSTITUTIONAL JUDGE  
RULES

SOUTH BEND, July 18.—Constitutionality of the 1935 state milk control law which established the Indiana milk control board with power to fix prices and regulate and license dealers, was upheld yesterday by Special Judge William A. Bertsch in superior court.

Judge Bertsch overruled a demurrer to action filed by the state against Delbert Schafer and Frank Albert, local dairymen. Their attorney, Walter Arnold, immediately announced that he would file answers to the state's suit within ten days and "fight this out all summer if need be."

The state board, through attorneys Roland Obenchain and Paul Butler, sued the two dairymen, charging that they violated licensing provisions of the act by refusing to obtain a license. The state demands \$5,000 penalty from each.

Judge Bertsch held that the state law is a valid exercise of the state's police power.

He said:  
"The power to enact this legislation is the same that legalizes all health and pure food regulations, the validity of which has long been recognized."

The court also held the drastic penalties provided in the Indiana act justified in dealing with public health.

In a recent federal court decision here, the state act was criticized in part by three judges who did not, however, rule on its constitutionality, merely holding an emergency order of state milk control board fixing prices in the Fort Wayne area invalid.

SUFFERING FROM CONCUSSION

Mr. Stewart And Son Also Cut And  
Bruised. X-Ray Planned For  
Mrs. Stewart

Mrs. Orville Stewart is in the Home hospital at Lafayette believed suffering from concussion of the brain as result of an auto accident near Lafayette Wednesday night.

Mr. Stewart, manager of the Greencastle Water Works, and their son, both sustained cuts and bruises, according to reports reaching here Thursday noon.

The Greencastle people were enroute home from a vacation trip to Monticello. Mr. Stewart telephoned the water office Thursday morning and informed Mrs. Harold Duncan, the bookkeeper, that they had been in an accident. He said Mrs. Stewart was in the hospital and that X-ray pictures were planned to determine the real extent of her injuries. Mr. Stewart was excited, according to Mrs. Duncan, and she did not learn many particulars regarding the accident.

Marilyn Stewart, their daughter, is enjoying an outing at Battle Ground. It was thought that Mr. and Mrs. Stewart may have been visiting her on their way home and that the accident happened near Lafayette.

A call to the hospital Thursday afternoon revealed that Mr. Stewart was on his way to Greencastle but that Mrs. Stewart was still there. It was believed that Mr. Stewart was accompanied by his son.

CONTRACTS INVALIDATED

BROOKVILLE, Ind., July 18. (UP)—Permanent teaching contracts established under the 1927 tenure law were invalidated by a 1922 amendment, according to a ruling on file today in Franklin circuit court.

The ruling was made by Judge Roscoe O'Boone in upholding dismissal of Ernest Lock, teacher in Craig township, Switzerland county.

Lock, dismissed by Clyde R. Drake, Craig township trustee, demanded reinstatement under his tenure contract.

Members of the suppressed communist party were said to be working in secret "cells" of five members each—in order that, in event of a betrayal, as few persons as possible could be identified.

There were even reports that communists had worked their way into Nazi confidential councils in industry. Nazis ridiculed these reports, however, and they were regarded as fantastic exaggeration. But they were characteristic of gossip which made the nerves of some Nazis jumpy.

## MUST OBTAIN NEW LICENSE

All dealers in used automobiles and parts, regardless of whether these items constitute a major portion of their business, are required to obtain state licenses under a new law which became effective July 1, it was pointed out today by John Rightsell, local auto license branch manager.

Application blanks for licenses and copies of the law have been received at the branch from the state gross income tax division, which is handling collection of license fees.

Under the law, which was passed for the purpose of reducing the number of automobile thefts by breaking down the market for stolen cars and parts, such businesses as new car dealers who take trade-ins, junk dealers, used car lots, garages and repair shops and all others buying used cars or parts must obtain licenses, Mr. Rightsell said.

## HOTELS UNITE TO END FRAUDS

CHICAGO, (UP)—Deadbeats, bad check passers, bill-skippers and other fraud perpetrators are going to have a much harder time working their rackets on American hotels now.

Major hotels, hotel associations and law enforcement agencies have been linked with a teletype writer chain working 24 hours daily to flash alarms and warnings of fraud, theft and crime and full descriptions of persons who commit them.

The annual loss to the hotel industry through these crimes has been estimated at \$11,000,000. To reduce this total, W. J. Glen, president of the Hotel Men's Credit Association of Chicago, promoted the teletype-writer system, enabling hotels to isolate and catch crooks.

Glen enlisted hotels in New York, Denver, Los Angeles, San Francisco, Detroit, St. Louis, Chicago and other cities to bear the cost. Additional outlets will be installed as soon as equipment and funds are available.

Credit information can be sent instantly over the country.

"Credit references can be verified almost instantly through the teletypewriter," Glen said. "If we wish to check on a person's home town standing before giving him cash we can easily do so by a query on the teletypewriter to the member hotels in that city. This will eliminate many misunderstandings and time taken up checking by mail."

"The system will work both ways, in favor of the legitimate guest who wants a check cashed and who does not hold a credit card with the hotel at which he is staying, and against the fraud and confidence men, who have cost hotels millions of dollars."

## WATCH KIDNEYS SAME AS BOWELS

## Wash Out Your 79,200 Feet of Kidney Tubes

Your bowels contain only 27 feet of intestines, yet the kidneys contain nearly 10 million tiny tubes or filters which would measure 79,200 feet if laid end to end. Therefore, it is just as important to watch the kidneys as the bowels. Kidneys are working all the time and are one of Nature's chief ways of taking the acids and poisonous waste out of the blood.

Healthy persons pass thru the bladder 3 pints a day and get rid of more than 3 pounds of waste matter. If you pass less than this, your 79,200 feet of kidney tubes may be clogged with poisonous waste. This is a danger signal and may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swollen feet and ankles, rheumatic pains and dizziness.

Kidneys should be watched closely and need cleaning out the same as bowels. Ask your druggist for DOAN'S PILLS, an old prescription, which has been used by millions of kidney sufferers for over 40 years. They give happy relief and will help to wash out your 79,200 feet of kidney tubes. Get Doan's Pills at your druggist. © 1934, Foster-Milburn Co.

## TVA Project Held Constitutional

## NEW DEAL NOW CONCERNED OVER ENACTMENT OF AMENDMENTS

WASHINGTON, July 18, (UP)—The new deal was more concerned today in enactment of the pending Tennessee Valley amendments than in the New Orleans circuit court decision upholding constitutionality of the "yardstick" power program.

The amendments empowering the authority to sell surplus power have passed both the senate and the house since the Judge William I. Grubb decision overruled by the New Orleans court of appeals. They are now in conference for adjustments.

New dealers were delighted over their latest court victory, but pointed out that so far as the TVA is concerned it made little difference. The amendments, if enacted, would confirm TVA's right to sell surplus power.

The New Orleans decision, it was expected, will be appealed to the supreme court. A decision, however, cannot be had until fall as the court now is in recess.

Sen. George W. Norris, R., Neb., father of the TVA act, said he "absolutely expected" the New Orleans decision, and that he "never for one moment thought there could be anything but a reversal of Judge Grubb."

TVA Chairman Arthur E. Morgan was "very gratified" because of the decision. Rep. Andrew J. May, D., Ky., foe of TVA, believed there was not a "bit of doubt" that the New Orleans decision would be reversed by the supreme court.

If the case were taken to the supreme court, attorneys said, the ruling would be on the original TIVA act, the basis of the Grubb decision, and the amendments could not be brought in. If the act were declared unconstitutional, however, it would nullify the amendments.

## AMERICAN DANCER FINED IN PARIS FOR NUDE DANCE

PARIS, July 18, (UP)—Joan Warner, 22-year-old "American poetess of nude rhythm," was fined 50 francs (\$3.32) today for offending French morals.

The court fined the manager of the Eagehad restaurant, where Miss Warner performed her balloon dance, 200 francs (\$13.28).

Miss Warner was not in the court when the judgment was delivered. It declared that the defense had contended that the American dancer was not entirely naked during her dances.

A witness had said, however, that he had seen through a gossamer G-string she wore.

## IN MEMORY

In loving remembrance of our husband and daddy, Clair Robinson, who passed away July 18, 1934. A wonderful Daddy, husband and One who was better, God never sends a wonderful worker, so loyal, true, One in a million—that, daddy, you.

Just in your judgment, always Honest and liberal, ever upright. Loved by your friends and all who knew.

Our wonderful daddy, that was you.

Sadly missed by wife, and daughter, Mrs. Ruby Robinson and Mr. J. Cox, Jr.

## "DODGE BLAZES ECONOMY TRAIL" says ROY CHAPMAN ANDREWS

"Sturdy, rugged Dodge helped me blaze a way through trackless wastelands in the Far East," writes Roy Chapman Andrews, famous explorer. "And now Dodge blazes a new trail—the economy trail. I know my new Dodge costs less to run than a small car."

Dodge owners everywhere are getting gas and oil mileage heretofore considered beyond reach. Many figure it costs less to own a Dodge than a small, competitive make. They say their gas and oil savings quickly make up the difference in price.

Drive a Dodge yourself. Make the FREE economy test. See how pleasant, comfortable it is to drive with the "Airslide Ride" and "Synchronous Control." Dodge gives you the protection of all-steel bodies and genuine hydraulic brakes, yet costs only a few dollars more than the lowest-priced cars. List price now only \$645 up at factory, Detroit.

## A FORD V-8 TRAVELOG IN HOOSIER-LAND

"Well of  
all Things!"

### Fancy meeting you in POKAGON STATE PARK"

"Yes, and fancy us in a new Ford V-8. Isn't it a beauty? We breezed up here from Anderson in two hours and a quarter, and every foot of the way was as comfortable as my old rocker on the back porch."

"Fred's crazy about it. But don't get him started. He'll talk your arm off about speed and mileage and performance."

"We've been regular stick-at-homes. But I just wouldn't go touring around in our old car. Worry every minute till we got home—and then dead tired. So I put my

foot down and said to Fred, "You can afford a new car just as well as any one. I simply won't go anywhere any more in that dilapidated, limping excuse for an automobile." So we went right down to the Ford dealer—and here we are."

"Well, got to be getting along. You'll likely see us in any part of Indiana this summer. I'm going places from now on."

To owners of the 1935 Ford V-8 the more miles the more pleasure. The comfort of Center-Poise Riding and the new driving ease banish fatigue. The modern body lines and sumptuous fittings add pride of ownership to the lure of carefree jaunting. There is no better time than now to step up into Ford V-8 satisfaction.

## POKAGON STATE PARK

No spot in Indiana can offer more to the visitor than Steuben County with its holdings of beautiful lakes.

Pokagon Park, named for the last of the Potawatomi chiefs, is a tract of 500 acres with a two-mile beach on Lake James.

It was presented by Steuben County to the State ten years ago as a vacation retreat and playground for the citizens of Indiana.

The site is the most attractive of all this lake region. From the beach the property rises in long lines of wooded slopes and grassy lawns to a hilltop 1200 feet above sea level. More than 400 acres are in deep woods.

There is boating, bathing, fishing. For the nature lover there are delightful rambles. Flowers bloom in profusion. The early morning hours vibrate with a mighty chorus of bird voices. Elk, buffalo and deer graze on the hill-sides, as in the days of the Red Man.

Pokagon Inn is a modern hotel with forty-five rooms for guests. The rates are modest.

There is a delightful camping ground with ample parking space, fine recreation water and fireplaces.

Angola, at the junction of U. S. Roads 30 and 27, is the nearest town, five miles from the park.

**\$495** and up, f. o. b. Detroit. Safety Glass all around at no extra cost. Standard accessories group, including bumpers and spare tire, extra. Convenient terms through the Authorized Ford Finance Plans of the Universal Credit Company.
